

2023

vol. 33, issue 2

problems of cryobiology and cryomedicine

contents

Celebrating the 60th anniversary of the Society for Cryobiology..... 76

review

Goltsev A.M., Bondarovich M.O., Volkova N.O., Lutsenko O.D., Gaevska Yu.O., Babenko N.M., Chelomytko O.V., Ostankov M.V., Vvedenskyi D.B., Kisielova H.G., Dubrava T.G. Cryobiology and cryomedicine techniques' boosting in wartime..... 77

original contributions

theoretical and experimental cryobiology

Todrin O.F., Timofeyeva O.V., Gordiyenko O.I. Time-dependent features of mass transfer and transmembrane potential in erythrocytes during equilibration in cryoprotective solutions..... 103
Yagnuk Yu.A., Gurina T.M., Peretyatko O.G., Sklyar N.I., Yagnuk A.I., Kalinichenko S.V. Antibiotic sensitivity of *Escherichia coli* museum strains after long-term storage in a lyophilized state at moderately low temperatures..... 115

cryopreservation of biological resources

Zubov P.M., Zubova O.L., Babichuk L.O. Trolox antioxidant as a factor in stabilization of human cord blood nucleated cells during cryopreservation..... 122

short communication

Shevchenko N.O., Terekhova O.O., Kaverinska A.I., Prokopiuk O.S., Lazurenko V.V., Prokopiuk V.Yu. Evaluation of effectiveness of umbilical cord cryoextract in aesthetic medicine (*in vitro* study)..... 133
Zavhorodnii A.I., Bilushko V.V., Kalashnyk M.V., Pozmogova S.A., Paliy A.P., Pavlichenko O.V. Protective media composition and freezing regimen experimental substantiation during *Mycobacterium avium* freeze-drying..... 139
Kisielova H.G., T.G. Dubrava, Goltsev A.M. Heat shock proteins as key triggers to form cryopreserved progenitors-derived tolerogenic dendritic cells..... 144

Instructions for Authors..... 152
