

# Table of contents, year 2025, Volume 35

## No. 1

### REVIEW ARTICLES

- Bozhok G.A., Ustychenko V.D., Sydorenko O.S., Bozhkova Yu.O., Alabedalkarim N.M., Pakhomov O.V., Vvedenskyi D.B., Shatillo A.V., Bondarenko T.P., Legach Ye.I. Cryopreservation of neural crest-derived cell . . . . . 3

### ORIGINAL CONTRIBUTIONS

#### *Theoretical and experimental cryobiology*

- Osetsky O.I., Pakhomova Y.S., Chekanova V.V., Hvozdiuk Y.V. Role of polyvinyl alcohol in cryoprotective media: evaluating efficiency and limitations in erythrocyte freezing . . . . . 14

#### *Cryopreservation of biological resources*

- Goltsev A.M., Gaevska Yu.O., Dubrava T.G., Bondarovykh M.O., Ostankov M.V. Cryopreservation regimens of bone marrow mononuclear cells determine the formation of immune dendritic cells . . . . . 23
- Kyrychenko I.I., Biriukov M.S., Pokhil S.I., Tymchenko O.M. Cultivation and cryopreservation of *Dientamoeba fragilis* xenic cultures in RPMI medium . . . . . 33
- Khala I.P., Repina S.V., Nardid O.A., Naumenko Ye.Y., Mangasarov D.O. Does the temperature of  $-80^{\circ}\text{C}$  preserve the activity of antioxidant enzymes embedded into alginate microcapsules? . . . . . 46

### CHRONICLE

- Celebrating the 90th anniversary of Professor Colin Green. . . . . 50

- Instructions for Authors . . . . . 52

## No. 2

### REVIEW ARTICLES

- Chernobai N.A., Gerilovych A.P., Shevchenko N.O. Biotechnological potential of microalgae: storage methods and non-cryogenic factors of cryopreservation efficiency . . . . . 57

### ORIGINAL CONTRIBUTIONS

#### *Theoretical and experimental cryobiology*

- Gurina T.M., Nardid E.O., Seliuta A.A., Polyakova A.L., Martsenyuk V.P. Sterilization and low temperature effects on regenerative potential of hyaluronic acid . . . . . 68
- Sukach O.M., Kovalenko I.F., Vsevolodska S.V., Ochenashko O.V., Kovalenko S.E. Theoretical determination of biophysical parameters for optimising neural cells' three-dimensional structures cryopreservation . . . . . 76
- Shcheniavskyi I.Y., Akhatova Yu.S. Antioxidant and antihypoxic activity of human cord blood extracts obtained with various temperature regimens of destruction of cellular elements and extraction media . . . . . 85

#### *Cryopreservation of Biological Resources*

- Zubov P.M., Zubova O.L. Antioxidant protection in cryopreservation: the role of Trolox in preserving human cord blood nucleated cells . . . . . 92
- Trufanova N.A., Rogulska O.Y., Semenchenko O.A., Mishchenko O.S., Petrenko O.Yu. Cryopreservation of mesenchymal stem cells within macroporous matrices after sucrose pretreatment . . . . . 103

### CHRONICLE

- In memory of Dr Arthur W. Rowe . . . . . 110

- Instructions for Authors . . . . . 111

### No. 3

#### ORIGINAL CONTRIBUTIONS

##### *Theoretical and experimental cryobiology*

Myrnyi V.H., Moisieieva N.M. Effect of chronic cold stress and Dalargin on blood parameters in guinea pigs . . . . . 115

Lomako V.V., Pirozhenko L.M., Shylo O.V. Effects of short-term cold exposures on blood leukocyte parameters in rats of different ages . . . . . 123

Korkh I.V., Rusko N.P., Paliy A.P., Boiko N.V., Admin O.Ye., Pavlichenko O.V., Kudriashov A.I., Karban Yu.V., Paliy N.V. Features of the relationship between chemical composition of cow's milk and its freezing point values . . . . . 130

Yarosh A.V., Riabchun N.I., Riabchun V.K., Kuzmyshyna N.V., Solonechna O.V. The impact of low-temperature tolerance on the environmental plasticity indicators of winter bread wheat in the context of climate change . . . . . 138

Zadorozhna O.A., Shyianova T.P. Storage of cereal seeds at 4 °C . . . . . 149

##### *Cryomedicine, Clinical and Experimental Transplantology*

Lutsenko R.V., Bilovol O.M., Knyazkova I.I., Sydorenko A.H., Purdenko T.Y., Lutsenko O.A. Impact of indoline derivatives on carbohydrate metabolism of rats within a cold stress model . . . . . 157

**Instructions for Authors** . . . . . 163

### No. 4

#### REVIEW ARTICLES

Shapovalov V.V., Nevzghoda O.A., Shapovalova V.O., Osyntseva A.O., Shapovalov V.V. Legal and bioethical foundations of human cell and tissue cryobanks in Ukraine: regulatory framework, challenges and prospects . . . . . 167

Sukach O.M., Maiorova O.R. Use of methods for determining cell viability in cryobiological research . . . . . 181

#### ORIGINAL CONTRIBUTIONS

##### *Theoretical and experimental cryobiology*

Pakhomov O.V., Kovalenko I.F., Chernobai N.A. Modeling cell osmotic behavior for improvement of cryopreservation protocols . . . . . 196

Gurina T.M., Kovalov G.O., Poliakova H.L., Naumova O.V., Markovsky V.D., Seliuta A.A. Assessment of hyaluronic acid and DMSO influence on low-temperature tissue damage course: an experimental model . . . . . 210

##### *Cryomedicine, Clinical and Experimental Transplantology*

Petrushko M.P., Yurchuk T.O. Hypoxia as a modulating factor of human sperm capacitation and cryoresistance . . . 221

#### SHORT COMMUNICATION

Shcheniavskiy I.I., Akhatova Yu.S., Moisieieva N.M., Gorina O.L., Lipko O.P. Study on the dependence of alpha-feto-protein content in human cord blood extracts on extraction conditions . . . . . 226

#### CHRONICLE

In memory of Leonid F. Rozanov . . . . . 229

In memory of Vladyslav G. Babiychuk . . . . . 230

**Abstracts of the 49<sup>th</sup> Annual Conference of Young Scientists "Cold in Biology and Medicine"** . . . . . 231

**Instructions for Authors** . . . . . 253

**Key words index, year 2025, Volume 35** . . . . . 255

**Table of contents, year 2025, Volume 35** . . . . . 257
